

Tachometer

Features:

- Photo tachometer and contact tachometer in one precision instrument
- Ranges: from 0.5 to 19,999 RPM in contact mode; from 10 to 99,999 RPM in photo mode
- Surface speed measurements in ft/min. or m/min.
- Automatic reverse display direction depending on which measurement mode you are in
- Long detecting distance for photo tachometer; fast sampling time for low RPM contact measurement

Specifications:

Range:	0.4 to 20,000 rpm
Resolution:	0.01 rpm: 0.4 to 99.99 rpm; 0.1 rpm: 100.0 to 9999.9 rpm; 1 rpm: 10,000 to 20,000 fpm
Accuracy:	±0.007% ±1 LSD
Power Supply:	3 x "AA" alkaline batteries
Battery Life:	100 hours continuous use
Weight:	0.45 lb (200 g)

DT-1236L	Photo/Contact Tachometer w/ Laser	\$295

Tachometer

The instrument has a large, easy-to-read dial, with black figures indicating revolutions per minute and red figures on the inner circle indicating feet per minute readings, without any calculations.

This precision speed indicator is a high precision indicator for the accurate measurement of revolutions per minute or linear speeds in feet per minute. Being of the chronometric type, with a built-in timing element operating over a fixed period of three seconds, this speed indicator is especially suitable for accurate measurements of constant speeds. Accuracy is ±0.5% over a range of 0 to 10,000 rpm and 0 to 3,000 fpm..

The instrument operates in a totally automatic fashion. Once the start button is depressed, the indicator will begin to register revolutions over a fixed period of three seconds. The hands then stop and the reading may be taken from the dial at leisure. The pointer remains in a fixed position until returned to zero by depressing the reset button.

H	Precision Speed Indicator	\$495

Tachometer

Features:

- Exceptional resolution at low speeds
- Four measuring modes: Real time, maximum, minimum and mean
- Auto measuring range to 20,000 rpm
- 12 different measuring units: rpm, fpm, ipm, mpm, ypm, cpm, in, yd, ft, m, cm and total revolutions
- Last reading recall and memory for 19 data
- Automatic statistics: Max, Min and Mean
- Easy-to-read 5-digit 0.47" (12mm) high LCD
- Durable metal housing
- Includes two convex tips, one concave tip, three "AA" batteries and carrying case
- Optional 12" wheel available for measuring surface speed and distance
